

Health IT Wins!

Delivered to your door...

WIN!: Patient care coordination with Pharmacy utilization of IHIN query.

Who: Greenwood Pharmacy

When: August 2015

Where: Independent Community Pharmacy

Why: By checking the IHIN, the Greenwood pharmacist was able to recognize suboptimal therapy and contacted the doctor.

What: The patient was not started on a high intensity statin after being discharged following an acute myocardial infarction.

Benefits: The patient is now on the appropriate medications following a myocardial infarction.
